

FAQ

MS-CIT Server Related FAQ

System Version Related

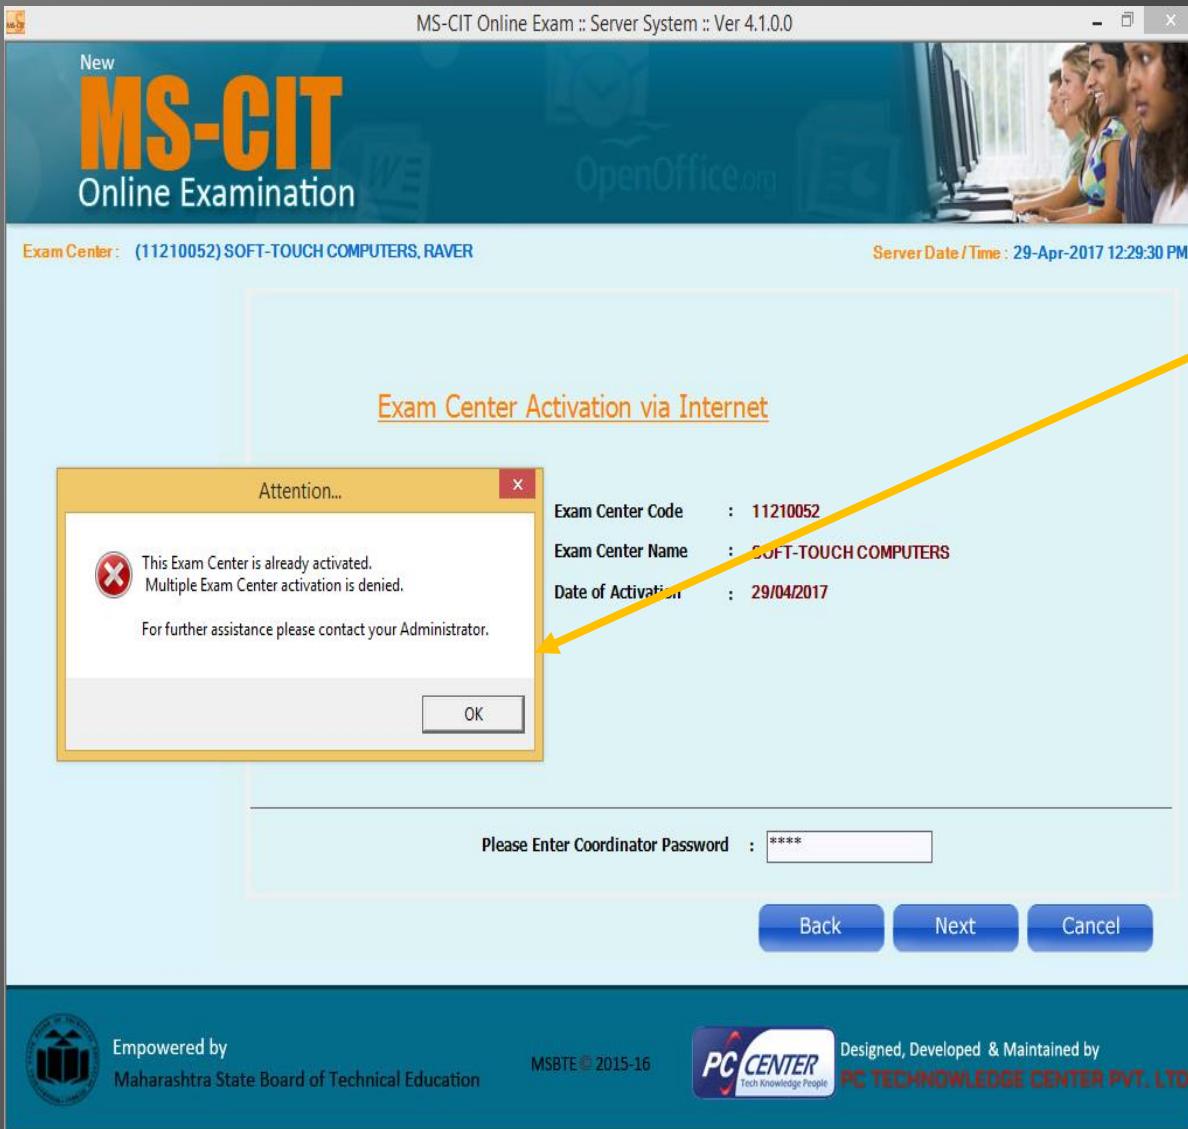

System Version Related

Error: As shown in below screen shot.

Solution:

1. Before running MS-CIT server; please check whether latest update for the MS-CIT Online Exam Software is installed or not.
2. MS-CIT Online Exam Software update is made available on MSBTE site under MS-CIT Section before every exam event.

Exam Center Activation

Exam Center Activation

Error: In case the exam center is already activated and exam center tries to activate the exam center again using another machine, system will display the following Error Message.

Solution: Exam Center should continue conducting exam on the same old server and no new server will be allowed.

Note: In case new Exam Server is to be activated, Exam Center must send Undertaking on their letterhead duly signed and stamped by the Center Head/Principal.

Alternate Backup Path

Error: When Alternate Backup Path is not set and exam center tries to start examination, this message will be displayed.

Solution: Exam Coordinator/Controller must set alternate backup path before continuing the exam.

Alternate path is the mapped physical drive of PC other than the MS-CIT server PC. Ideally this PC must be some MS-CIT Client PC which is supposed to be up and running when exam is going on.

Object Reference Error

Object Reference Error

Error: As shown in below screen shot.

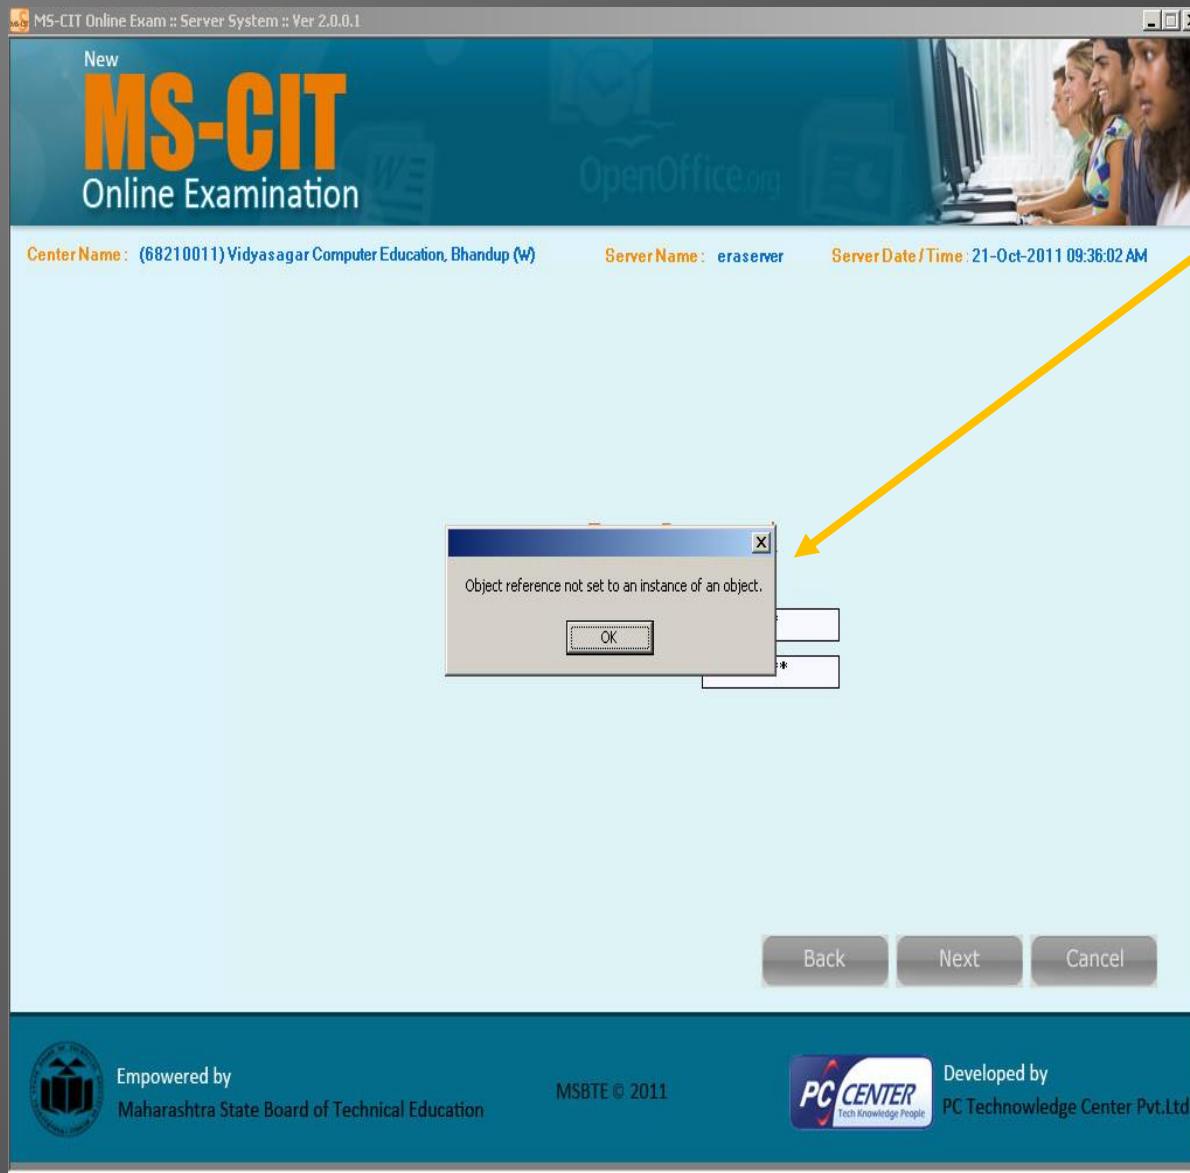

Solution: This error basically comes when there is no connectivity between Local MS-CIT Server PC and Remote MSBTE Server.

Please check internet connectivity.

This message also comes when there is connectivity issue between MS-CIT client and MS-CIT Server PC. In that case you need to check LAN connectivity. Also UAC setting and Windows Firewall must be turned off.

Contd...

Object Reference Error

Object Reference Error

Error: As shown in below screen shot.

Solution: This error is also noticed when exam center tries to run the application without running MS-CIT Software Update which is made available on MSBTE web site under MS-CIT Section.

Please download update from MSBTE web site and run the same on server as well as client machine.

Failed While Connecting to Remote Server Error

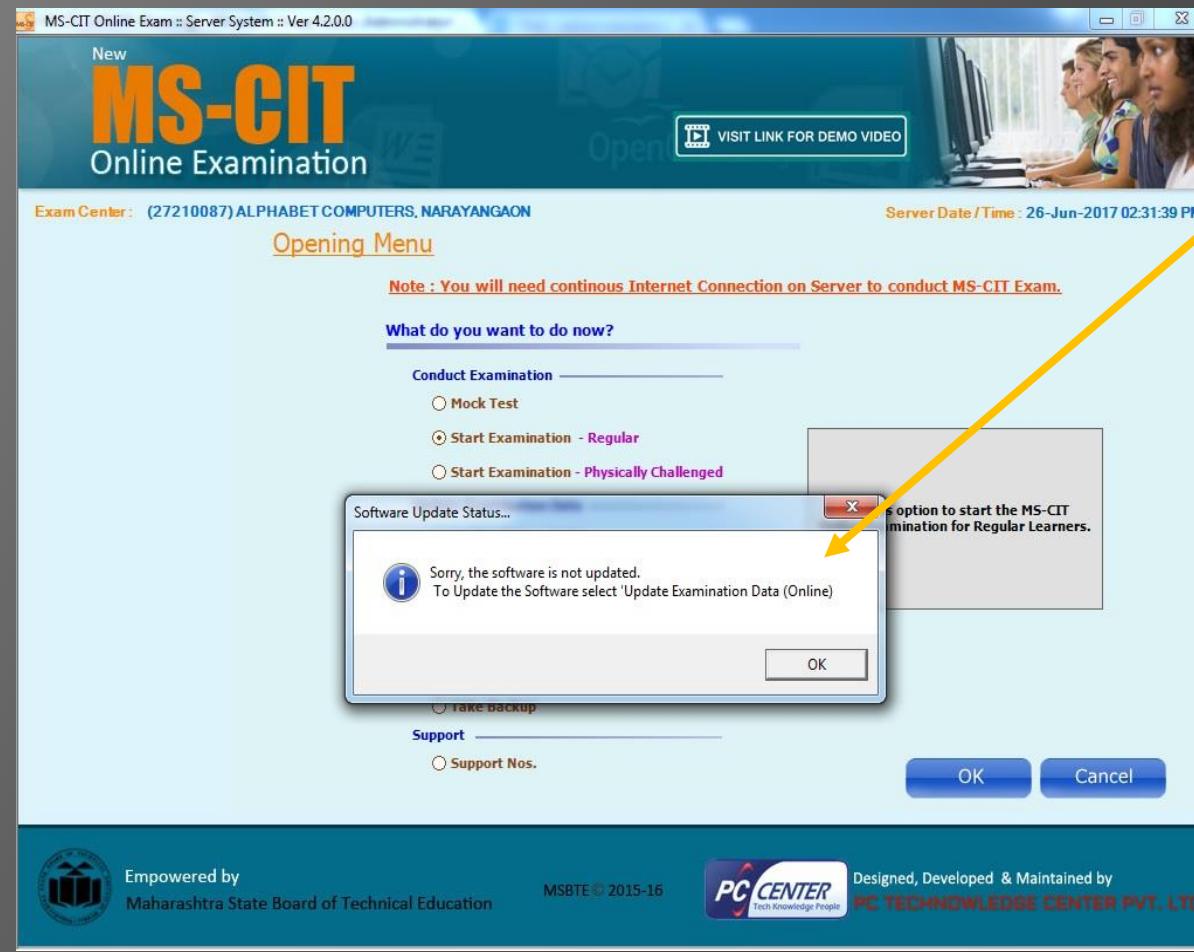

Failed While Connecting to Remote Server Solution

Error: As shown in below screen shot.

Solution:

1. You need to check whether your internet connectivity.
2. Also make sure that while connecting to Internet the IP address must be static. Dynamic IP will create problem.
3. Disable Windows Firewall
Disable UAC, Disable any Antivirus Software from Server PC as well as Client PC

Update Data Error

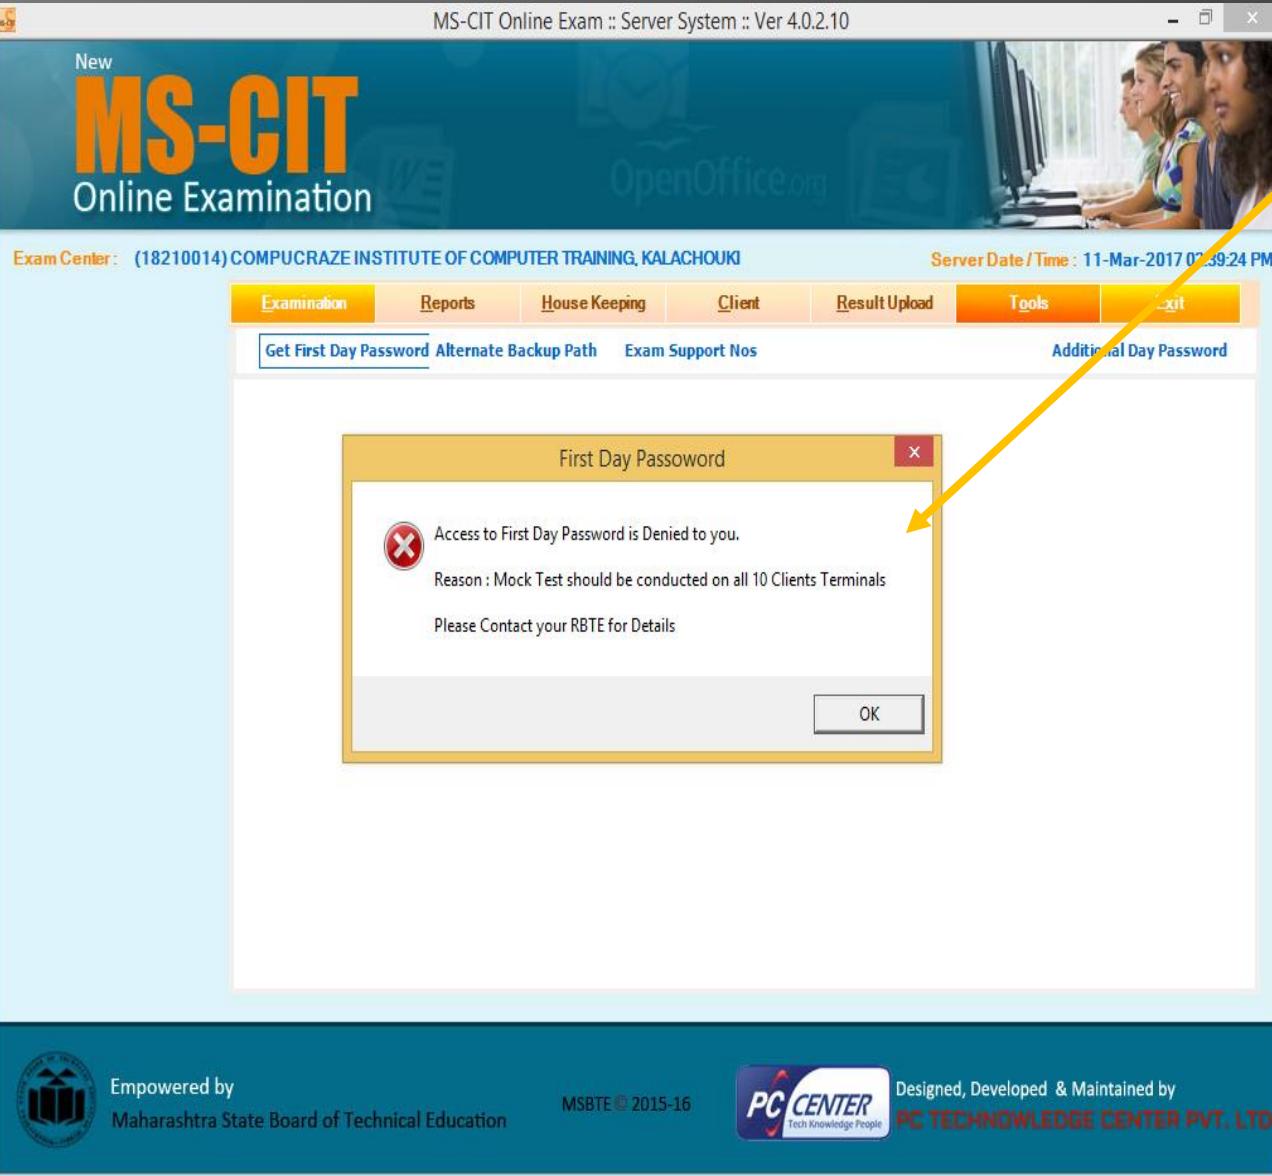

Update Data Error

Error: As shown in the screen shot below:

Solution: In order to conduct Regular or Physically Challenged Candidate Examination, Exam Center needs to **Update Examination Data** on local MS-CIT Server PC.

For doing 'Update Data', MS-CIT Server PC must have internet connection and must be connected to internet.

First Day Password

Error: As shown in screen shot below

Solution: This message appears when mock test is not conducted on 10 MS-CIT Client PC. Please conduct Mock Test on minimum 10 PC's.

Conversion failed when converting date and/or time for character string

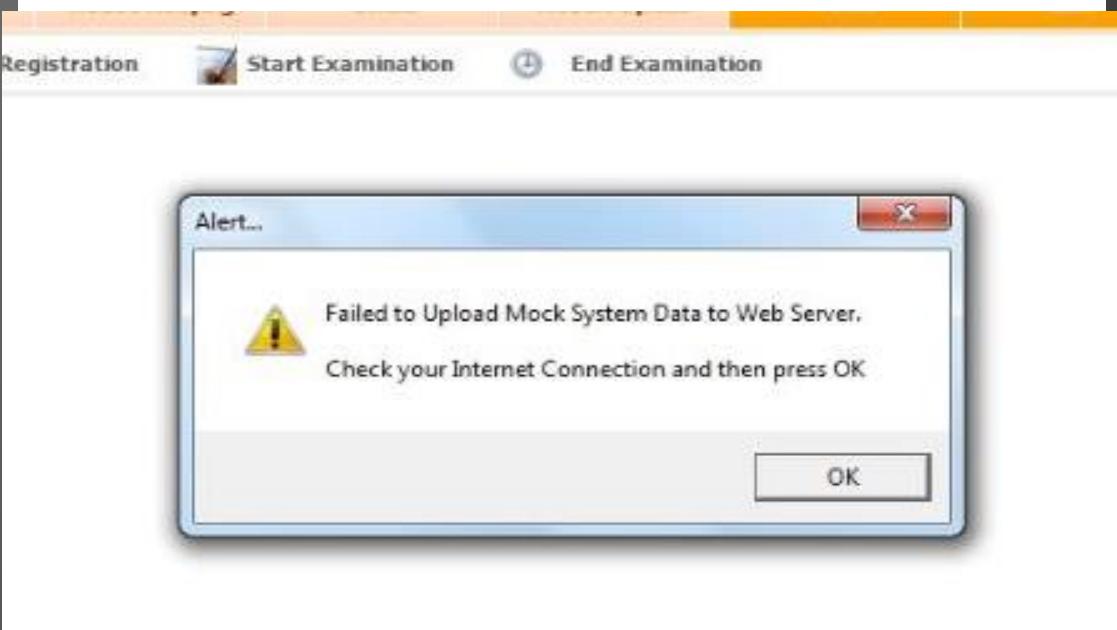

Date/Time Error

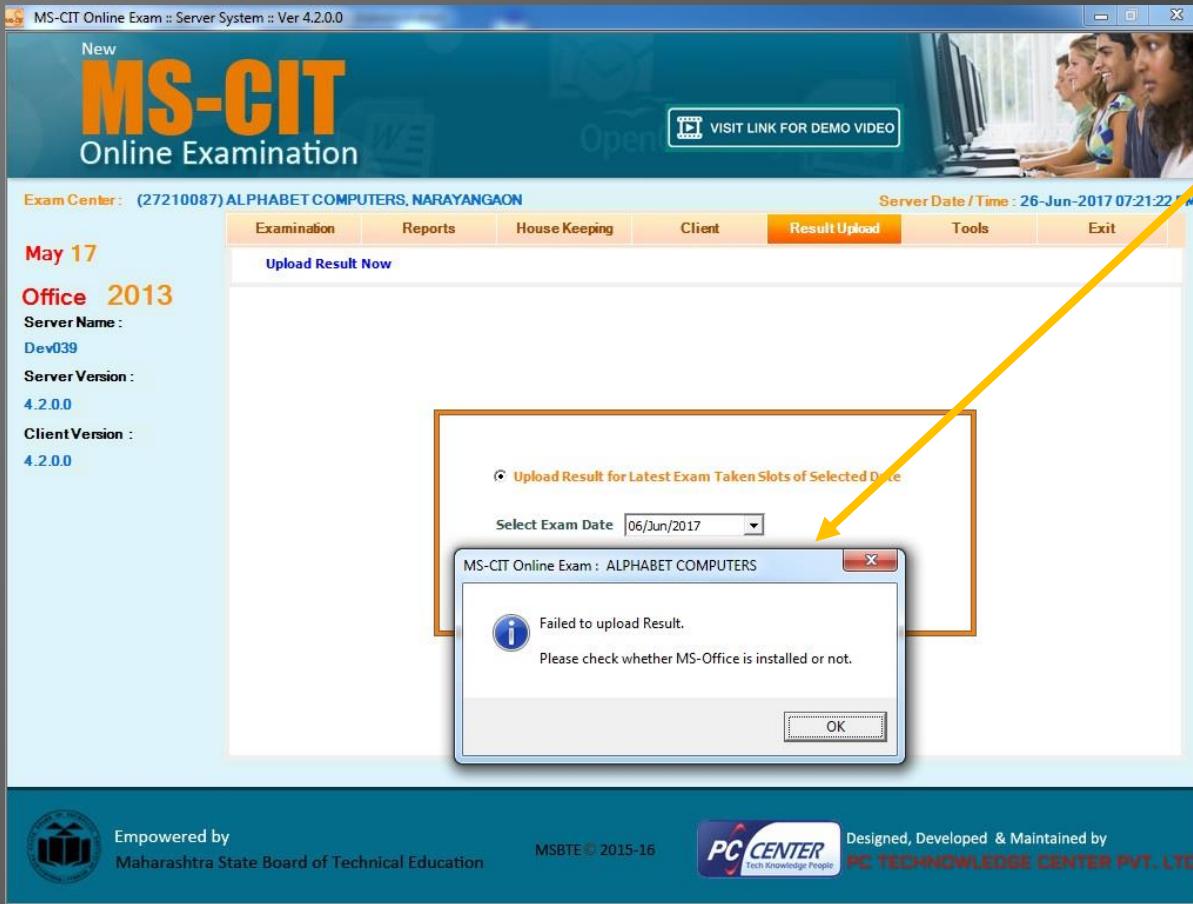

Error: As shown in screen shot below

Solution:

1. Please change regional settings of Date to "dd/mmm/yyyy" and " h:mm tt" on MS-CIT Server PC and on MS-CIT Client PC.
2. In Region and Language settings keep Keyboards and Languages settings to "English" and check it.

Upload Result Error

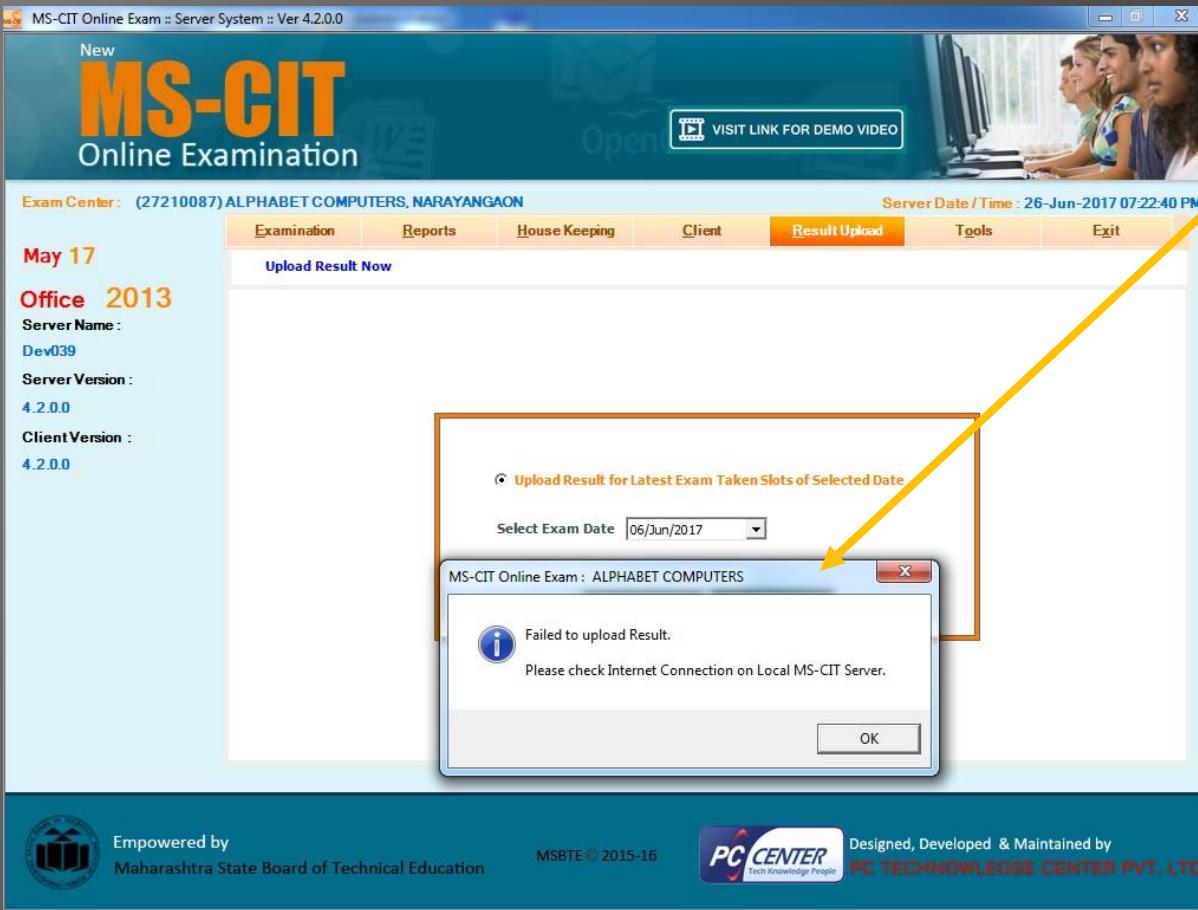

Upload Result Error

Error: As shown in the below screen shot.

Solution: While doing result upload MS-Excel 2013 is required on the MS-CIT Server PC. Kindly install the same and this issue will be resolved.

If the problem still persist, uninstall MS-Office 2013 and re-install MS Office 2013 on MS-CIT Server PC.

Upload Result Error

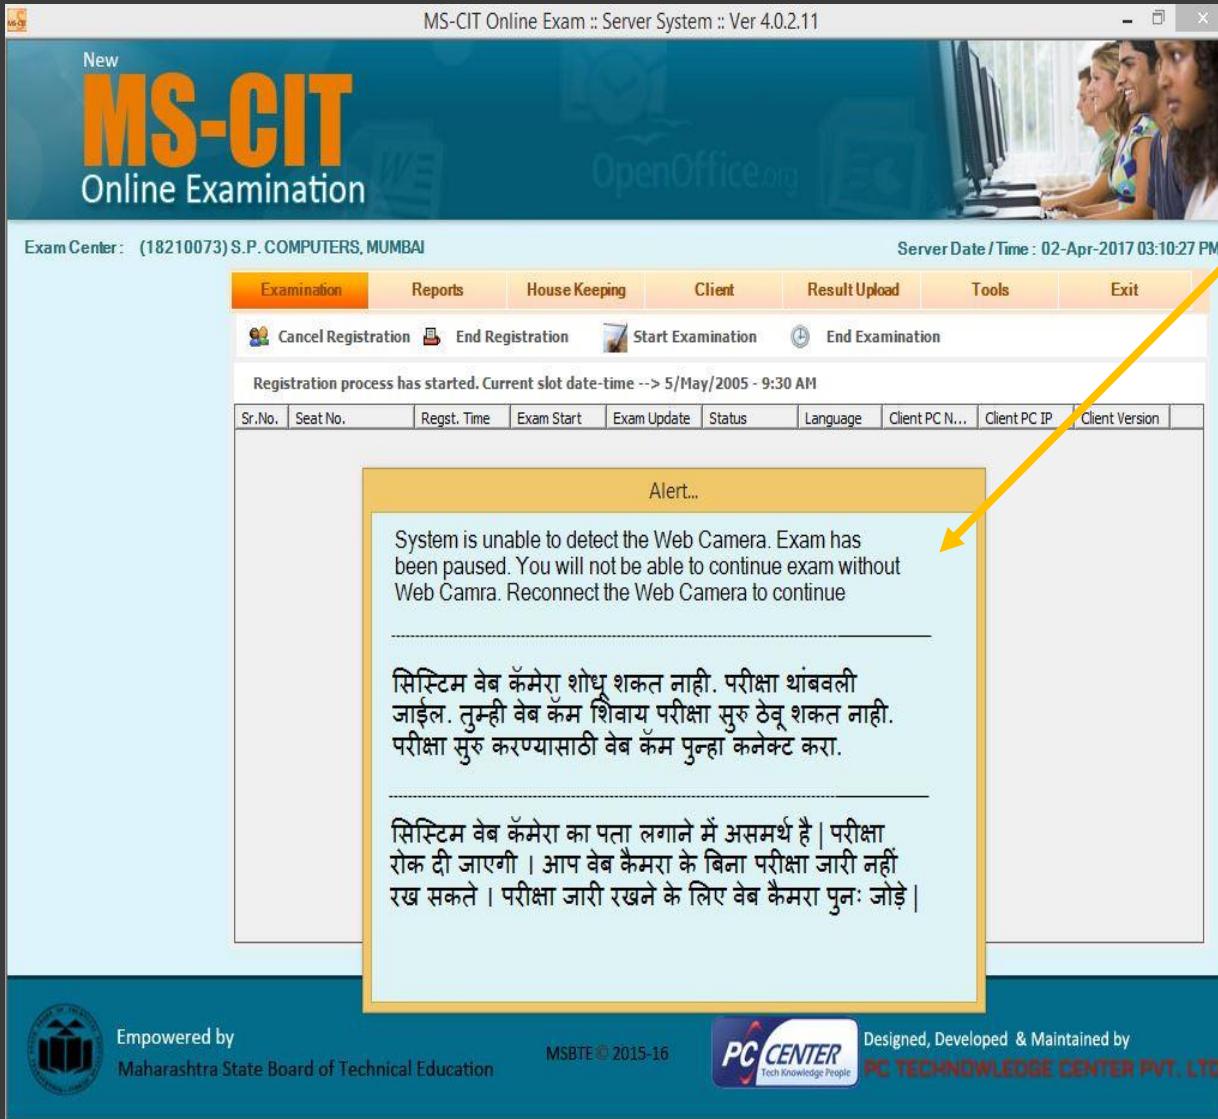

Upload Result Error

Error: As shown in the below screen shot.

Solution: While doing result upload Internet Connectivity on Local MS-CIT Server PC is required. If MS-CIT local server is not able to connect result upload will not happen.

Also try to connect with different device or provider in case current device is not able to connect.

Web Camera Error

The screenshot shows the MS-CIT Online Examination software interface. At the top, it displays 'MS-CIT Online Examination' and 'Exam Center: (18210073) S.P. COMPUTERS, MUMBAI'. The top menu bar includes 'Examination', 'Reports', 'House Keeping', 'Client', 'Result Upload', 'Tools', and 'Exit'. Below the menu, there are buttons for 'Cancel Registration', 'End Registration', 'Start Examination', and 'End Examination'. The main content area shows a message: 'Registration process has started. Current slot date-time --> 5/May/2005 - 9:30 AM'. A yellow-bordered alert box contains the following text in English and Marathi:

Alert...

System is unable to detect the Web Camera. Exam has been paused. You will not be able to continue exam without Web Camra. Reconnect the Web Camera to continue

सिस्टम वेब कॉम्प्यूटर शोध शक्त नाही. परीक्षा थांबवली जाईल. तुम्ही वेब कॉम शिवाय परीक्षा सुरु ठेवू शक्त नाही. परीक्षा सुरु करण्यासाठी वेब कॉम पुन्हा कनेक्ट करा.

सिस्टम वेब कॉम्प्यूटर का पता लगाने में असमर्थ है | परीक्षा रोक दी जाएगी | आप वेब कैमरा के बिना परीक्षा जारी नहीं रख सकते | परीक्षा जारी रखने के लिए वेब कैमरा पुनः जोड़ें |

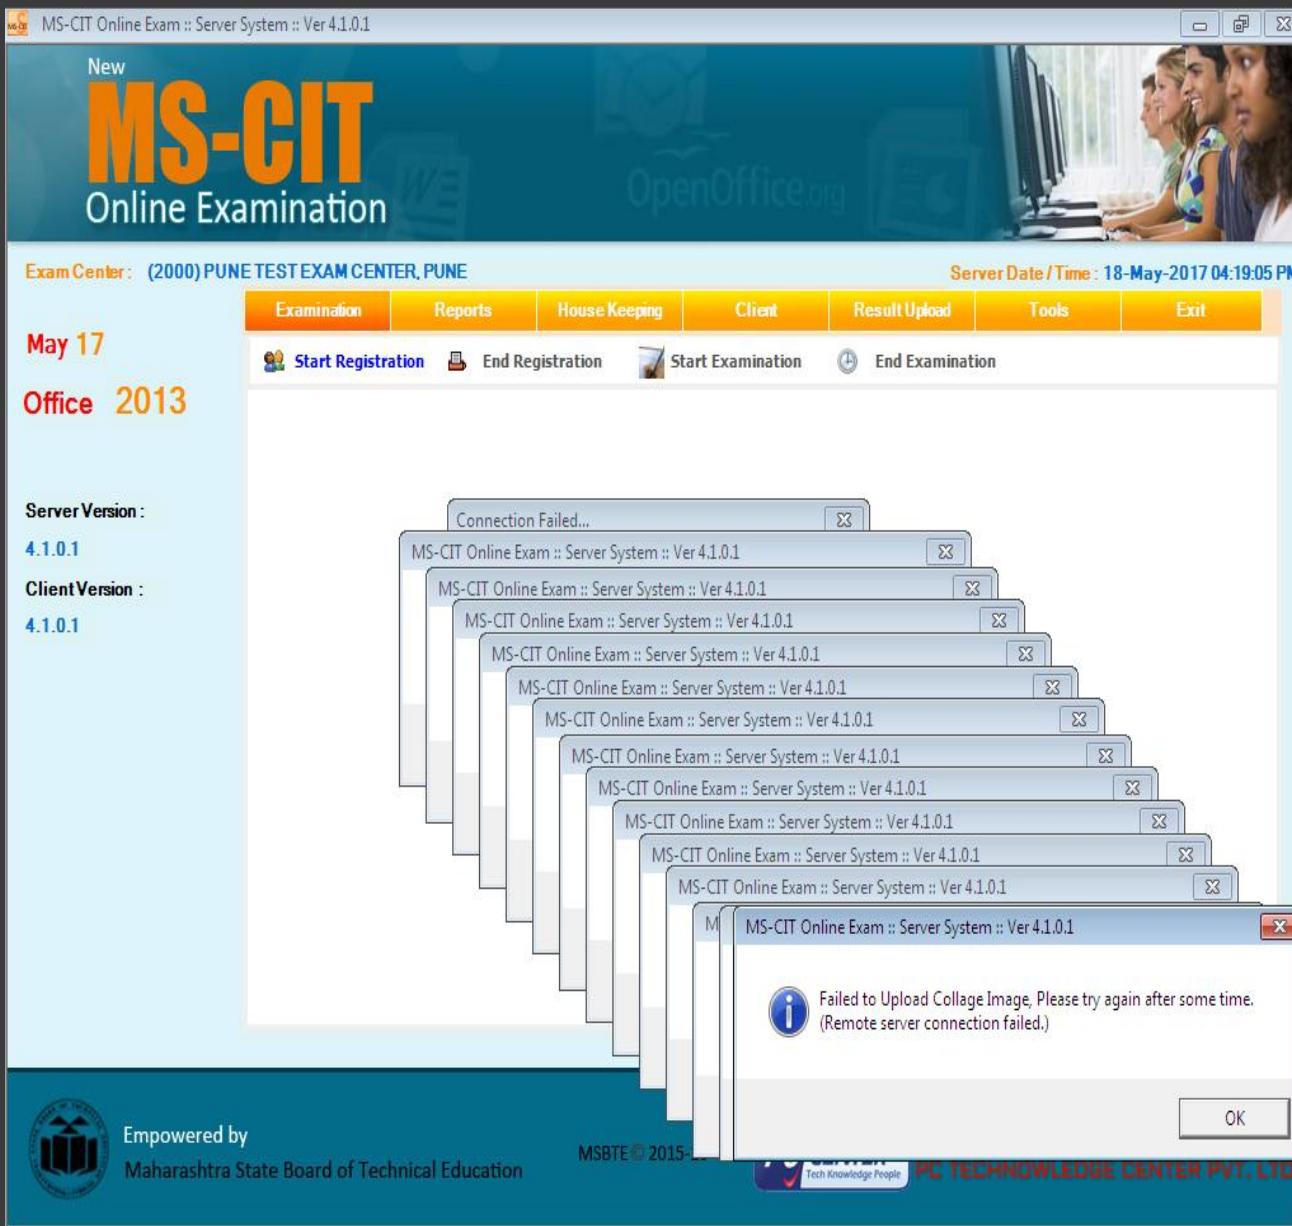

At the bottom, it says 'Empowered by Maharashtra State Board of Technical Education' and 'MSBTE © 2015-16'. It also credits 'PC CENTER Tech Knowledge People' and 'PC TECHNOLOGY CENTER PVT. LTD.' for design, development, and maintenance.

Web Camera Error

Error: This error comes when web camera is removed from MS-CIT Server PC anytime while exam is going on.

Solution: Web camera is to be reconnected or reinstalled.

Failed to Upload Collage Image Error

Failed to Upload Collage Image Error

Error: As shown in the below screen shot.

Solution:

1. This also happens because of internet connectivity is interrupted.

Crystal Report Error

The screenshot shows the MS-CIT Online Examination software interface. At the top, the title 'MS-CIT Online Examination' is displayed. Below it, the date 'March 17 Office 2013' and server/client versions '4.0.2.12' and '4.0.1.29' are shown. The main menu bar includes 'Examination', 'Reports', 'House Keeping', 'Client', 'Result Upload', 'Tools', and 'Exit'. A sub-menu for 'Attendance' is open. The 'Attendance' tab is selected, while 'Provisional Certificate', 'Slotwise Details', 'Day Wise Report', 'Center Wise Report', and 'Reschedule/Reallocation' are also listed. A watermark for 'OpenOffice.org' is visible in the background. A central window displays an error message: 'Unhandled exception has occurred in your application. If you click Continue, the application will ignore this error and attempt to continue. If you click Quit, the application will close immediately.' The message continues: 'The type initializer for 'CrystalDecisions.CrystalReports.Engine.ReportDocument' threw an exception.' Below this, a 'Details' button is visible, followed by 'Continue' and 'Quit' buttons. A scrollable 'Exception Text' section contains the full stack trace of the error.

Crystal Report Error

Error: As shown in the below screen shot.

Solution:

1. Install 32 bit Crystal Report From MS-CIT Setup CD (Setupfiles\Mser_32\Crystal Reports for .NET Framework 4.0 CRRuntime_32Bit_13_0_1.msi)

Timeout Expired Error

Error:

The message “Timeout Expired” appears when Exam Controller selected Exam Date, Exam Time and enters Daily Password.

Solution:

1. This happens because of heavy load on MSBTE’s Remote server while starting of exam as Local MS-CIT Server PC connects to MSBTE’s Remote server for data exchange.
2. Please keep trying after sometime.
3. Please also check whether internet connection is available on Local MS-CIT Server PC.

Slot wise Report Problem

Slot Wise Report Problem

Solution:

It was noticed some exam centers were facing difficulty with Slot Wise Report being not getting generated. So, for that purpose, we are providing alternate slot wise report button. This button is to be used only if the regular slot wise report does not work and requires Crystal Report component to be available on the MS-CIT Server PC.

Daily Password Error

Daily Password Error

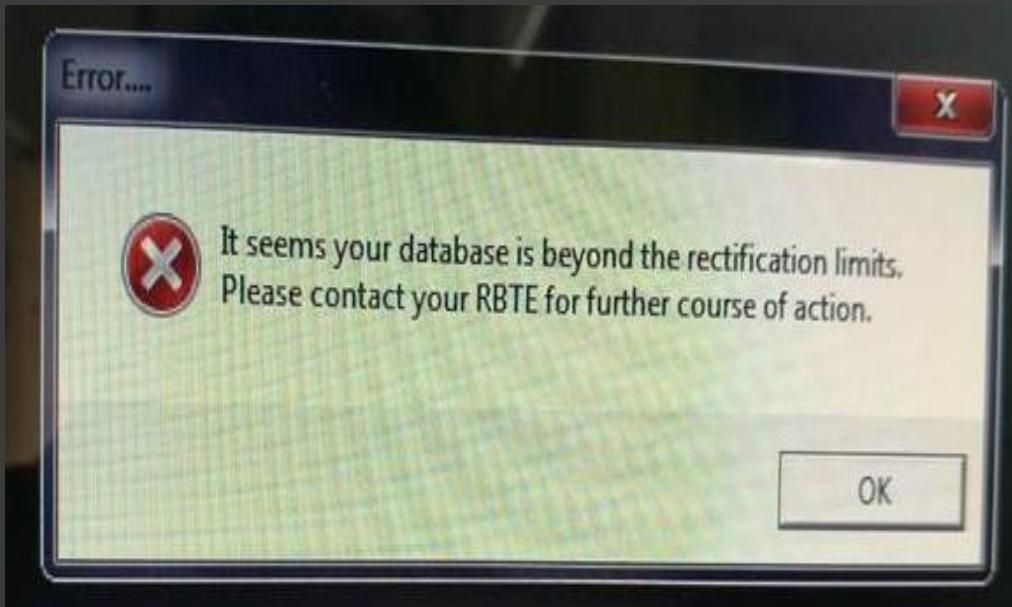

Error:

The message “Daily Password is not allocated for the Day.”

Solution:

1. This mainly happens when the MS-CIT Server PC update is not run properly or someone has manually updated the Local MS-CIT Server PC. Kindly run the update in the official way.
2. Also see that Update Data Online must be done completely before starting the exam from Local MS-CIT Server PC.
3. Check Attendance Report before starting the exam.

Master Database Corrupt

Master Database Corrupt

Error: This happens when MS-CIT Server Application Database is damaged due to any technical or incidental reason.

Solution:

1. It seems to be major issue with database. Kindly send mail to mscitetamsupport@msbte.com with the captured screenshot and support team will revert to you.
2. Also inform your nearest RBTE support staff about the issue.
3. Follow the solution given by support team.

✗ Denotes Required Note: Kindly Upgrade your System. Your User Configuration does not meet with System Requirements.

OK

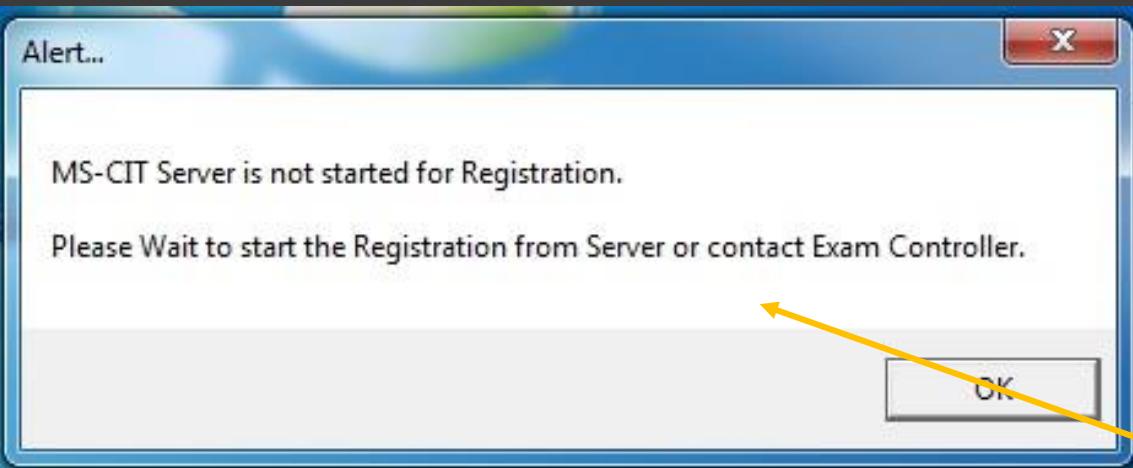

System Check Error

Error: ✗ is displayed against 'User Configuration.'

Solution: This indicator denoted that MS-CIT Client system requirement is not matching with the required minimum system requirement on the Client PC.

In the below screen shot ✗ against Web Camera denotes that Web Camera is not connected or is not detected. Kindly connect web camera in order to continue conducting exam.

Server is not Started Error

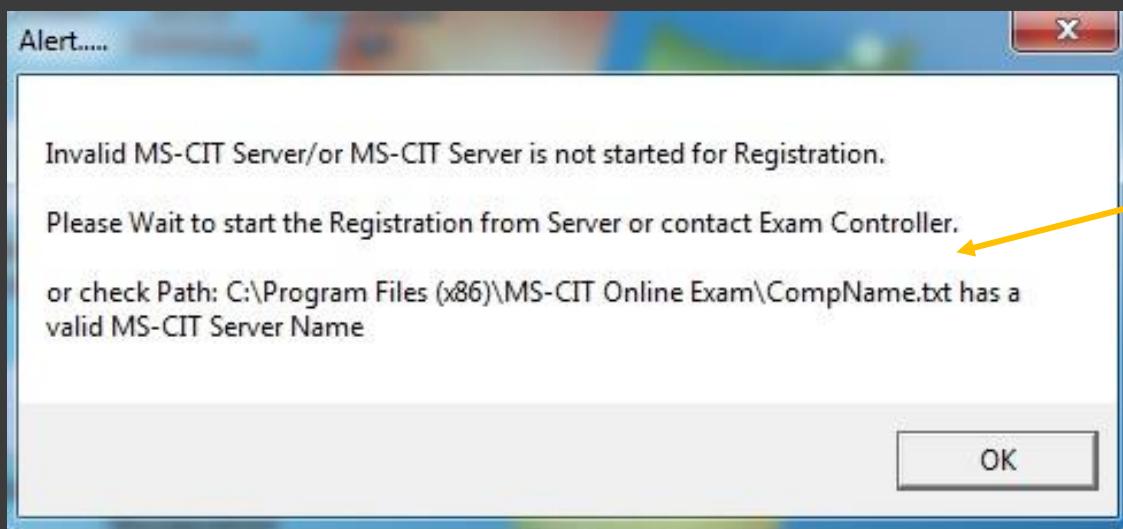

Server is not Started Error

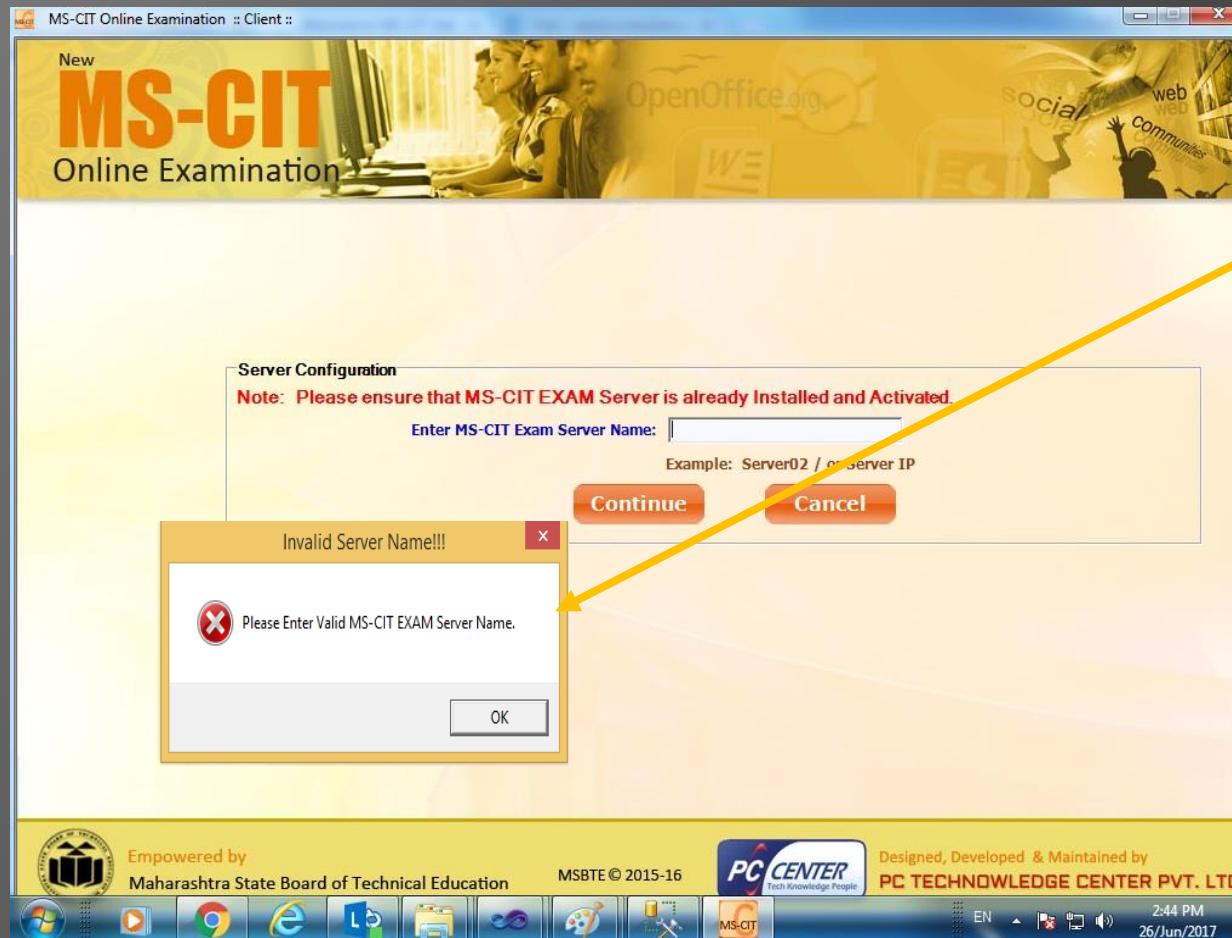

Error: As shown in the below screen shot.

Solution:

1. This message comes when MS-CIT Client PC is started before starting Registration Process from MS-CIT Server PC.
2. Another reason behind is that Client PC is not configured to connect to Server PC. In that case one quick way out is open the CompName.txt file and see whether it has correct MS-CIT Server PC Name or IP Address of MS-CIT Server PC

Configure Server

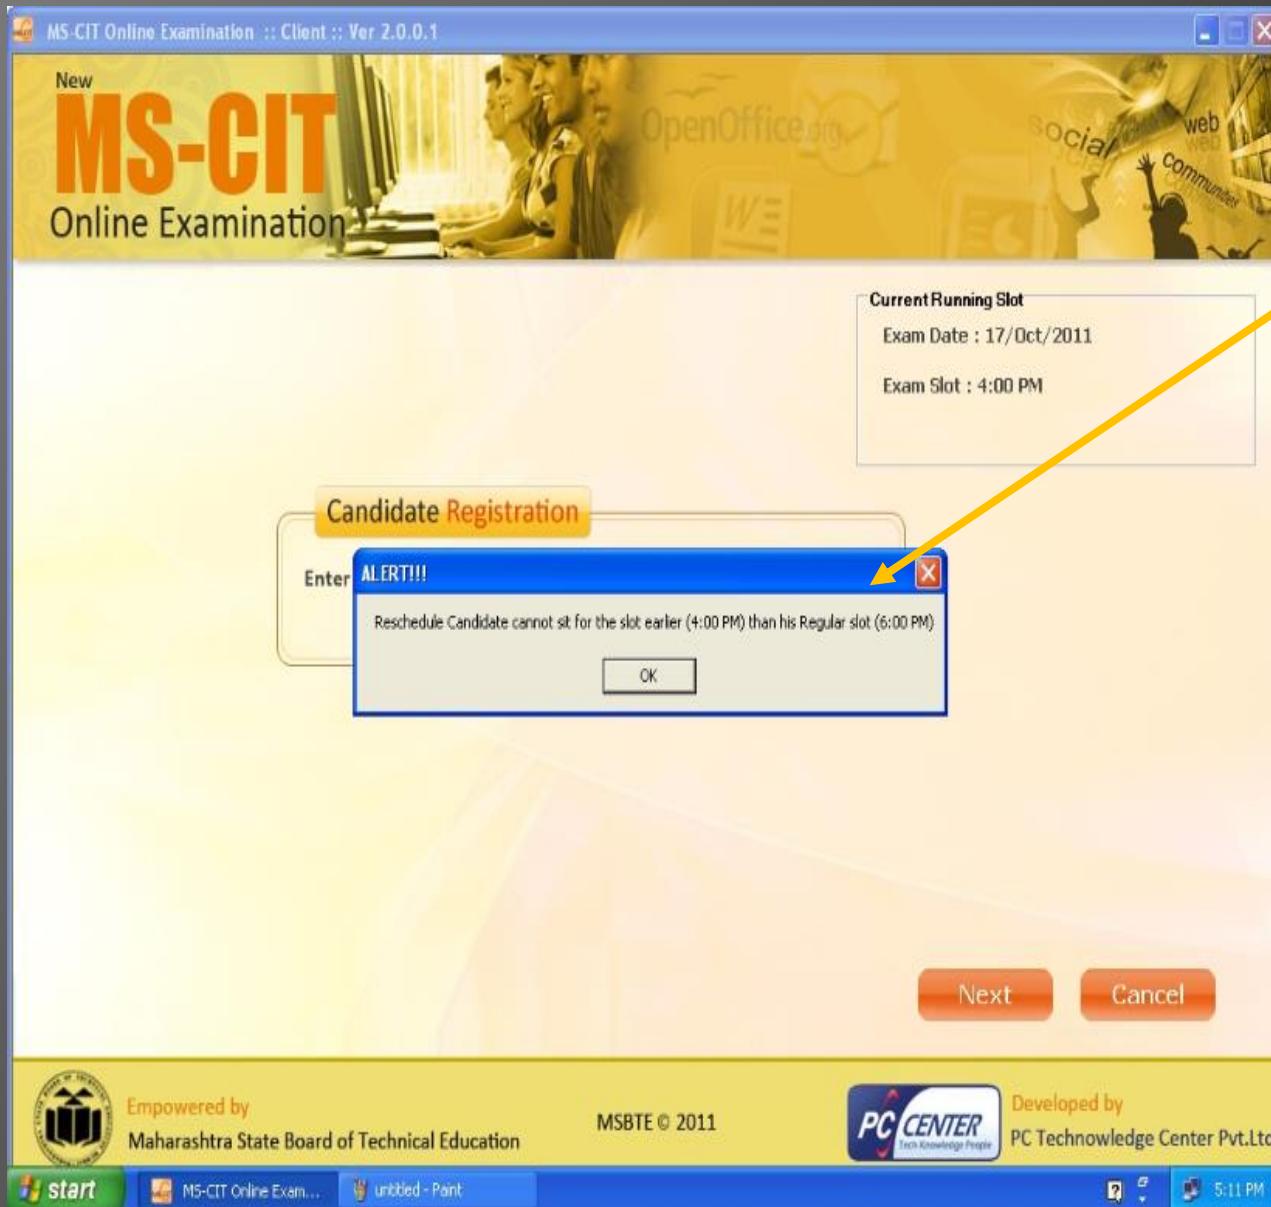

Configure Server

Error: From MS-CIT Client PC, while doing Server configuration, you will get following error message.

Solution: In order to connect to Local MS-CIT Server PC from Client PC, a valid MS-CIT Server PC name or Server PC IP must be entered from Client PC.

Before doing this, please see that local MS-CIT Server PC is up and running.

For Reschedule Candidate

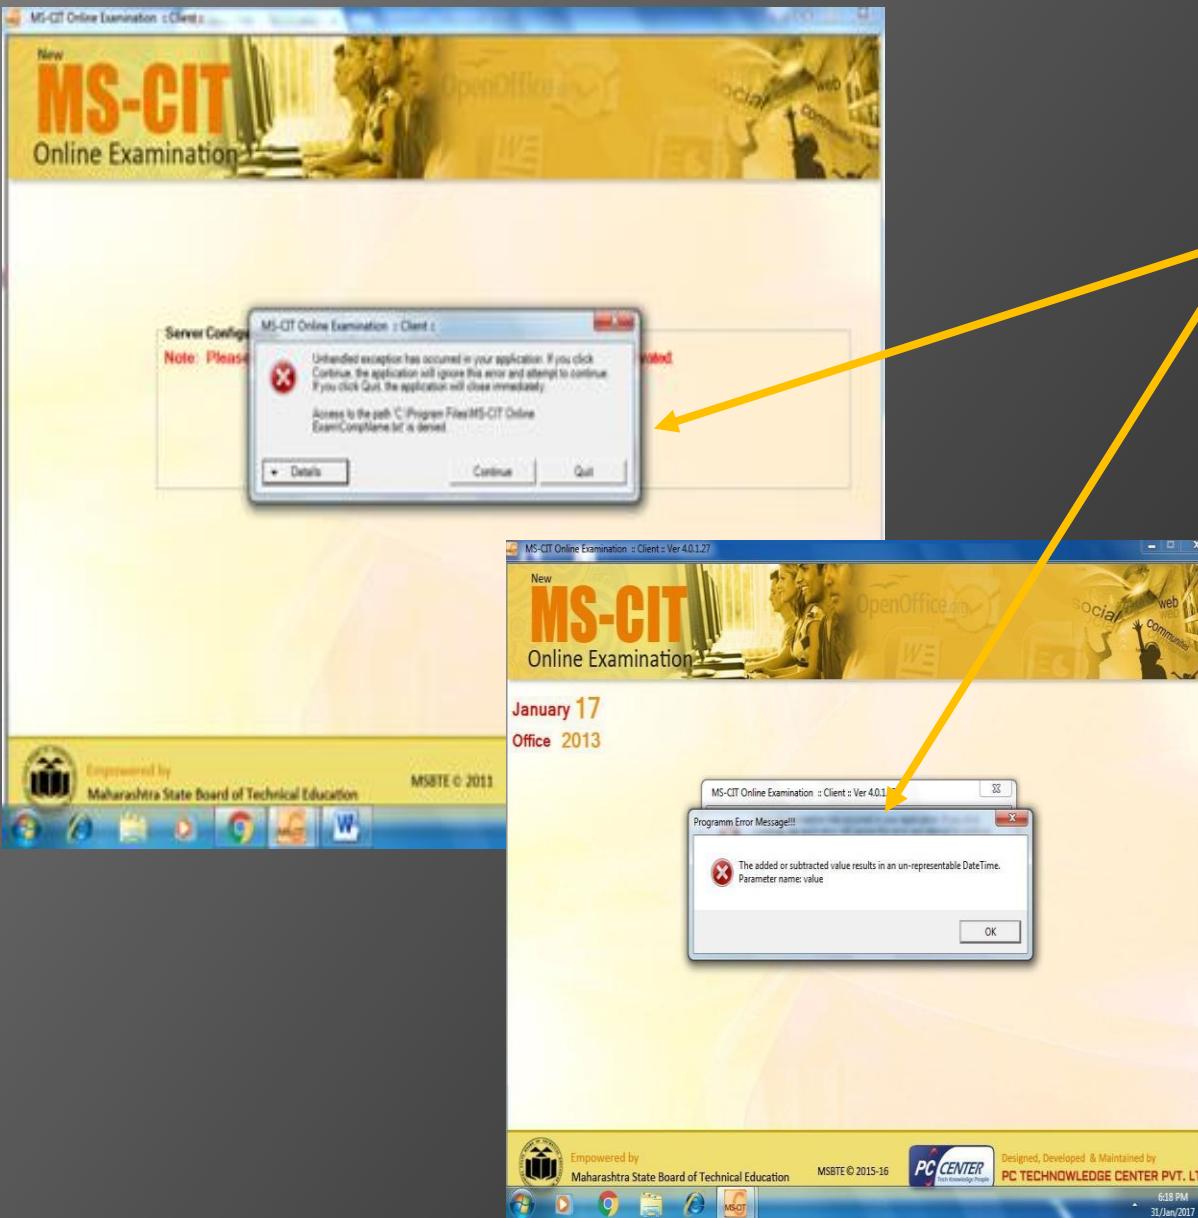

Reschedule Candidate

Error: As shown in the screen shot below.

Solution: Any Rescheduled candidate can not appear in any slot which is earlier than his regular slot.

So in the screen shot candidate belongs to 6 PM slot, then he can not sit in 4 pm slot as the slot is earlier than his regular slot. He can give exam only in the slot which is higher in the order after his last slot.

Unhandled Exception Error

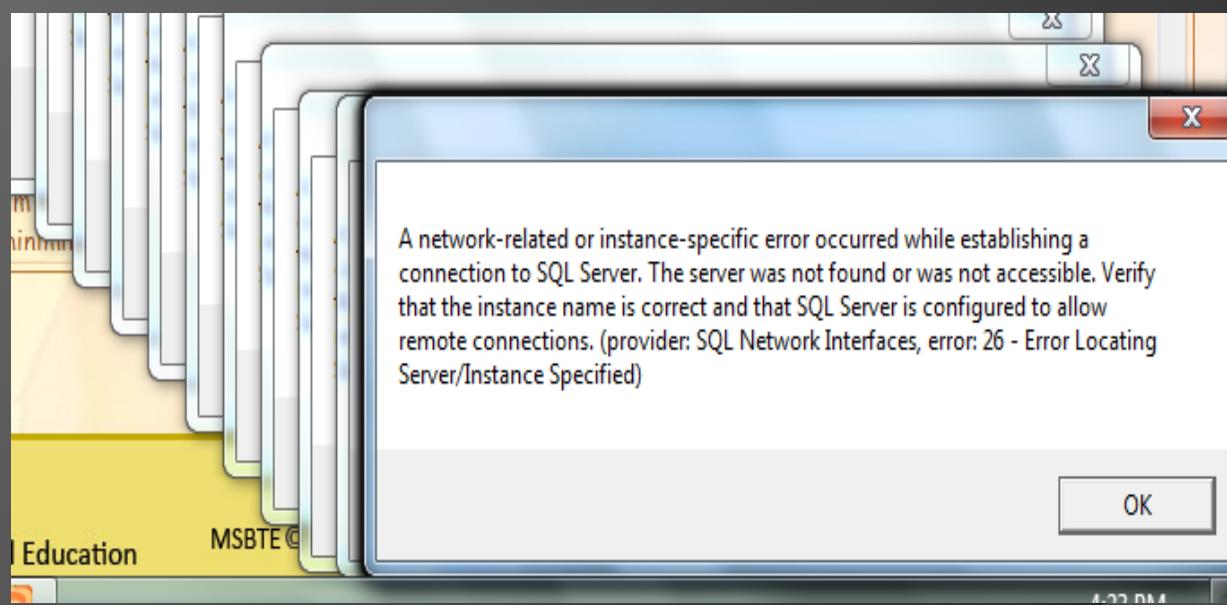

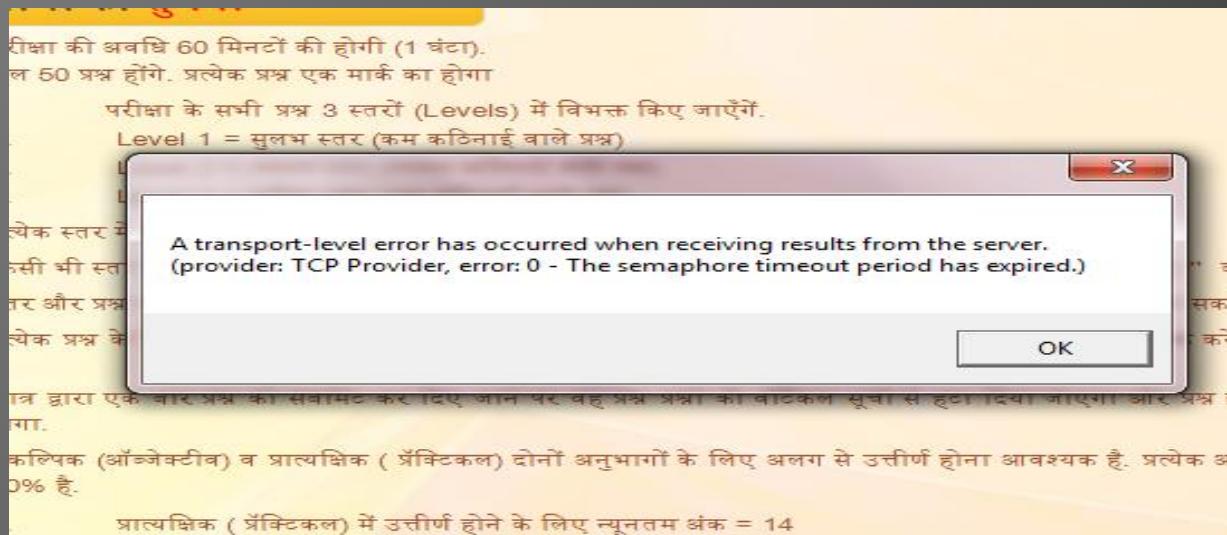

Unhandled Exception

Error: The error shown in below screen shot comes randomly because of multiple reasons. One major is web camera setting.

Solution: Please disconnect the web camera, remove its driver and shut down the PC. Please connect the camera again and then start the PC and let Windows take default camera driver. This should solve the issue. If the issue still exists, please try installing the actual drivers of the Camera.

A Transport-Level/Network Related Error

A Network Related Error

Error: As shown in the screen shot below.

Solution:

1. Kindly check your LAN connectivity. The main reason of this type of error is MS-CIT Server PC and MS-CIT Client PC are not connected.
2. Also see that Firewall is off, UAC is off, Antivirus is disabled.

Instruction : Click 'Submit' to submit the answer or 'Cancel' to skip the question. Do not close the open application.

Flash Error

Error: As shown in the screen shot below.

Solution: This basically happens if Flash object does not exists or is corrupt. In such case follow steps given below:

1. Copy the file "Flash11g.ocx" from MS-CIT Client PC and place it in the folder "C:\Windows\System32\Macromed\Flash".
2. Then open RUN Menu and type "regsvr32 "C:\Windows\System32\Macromed\Flash\flash11g.ocx". and press Enter.
3. You will get a message that the Component is successfully Registered.

This should solve the problem.

MS-CIT Final Online Examination

Support Files Related Error

Error:

The Questions displayed on the screen requires one image to be displayed to solve the question which is not seen on the screen.

Solution:

1. Check that “Files Check” Folder exists in the MS-CIT Client PC at MS-CIT Application Path. If not available kindly download the latest folder from
https://drive.google.com/a/msbte.com/file/d/0B4xywGqLWIGPR0NHU0hxZ19zanM/view?usp=drive_web
2. Copy all the Files from “Files Check” Folder to Files Folder.
3. Try to solve the question again.

Adobe Reader Related Error

Adobe Reader Related Error

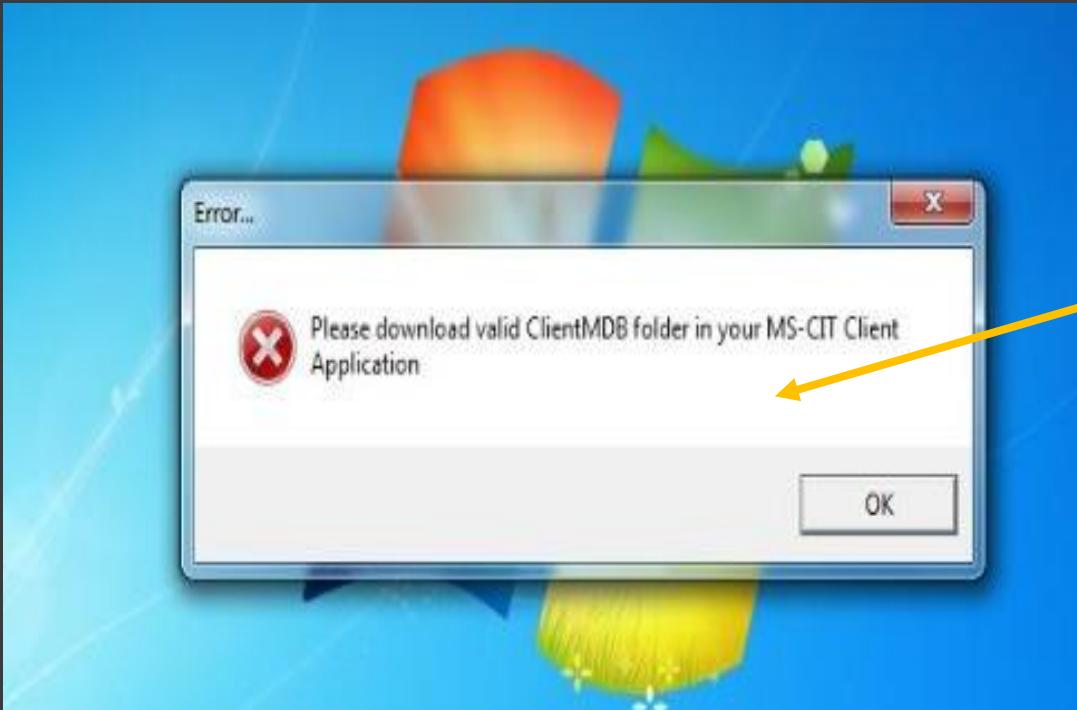

Error:

Message “Please install Adobe Reader.....” is displayed.

Solution:

1. In order to open or print any report from Local MS-CIT Server PC, Adobe Reader Software is required on MS-CIT Server PC. Kindly Install the same.
2. After installing the Adobe Reader, set Adobe Reader as default application for .PDF files.

ClientMDB Related Error

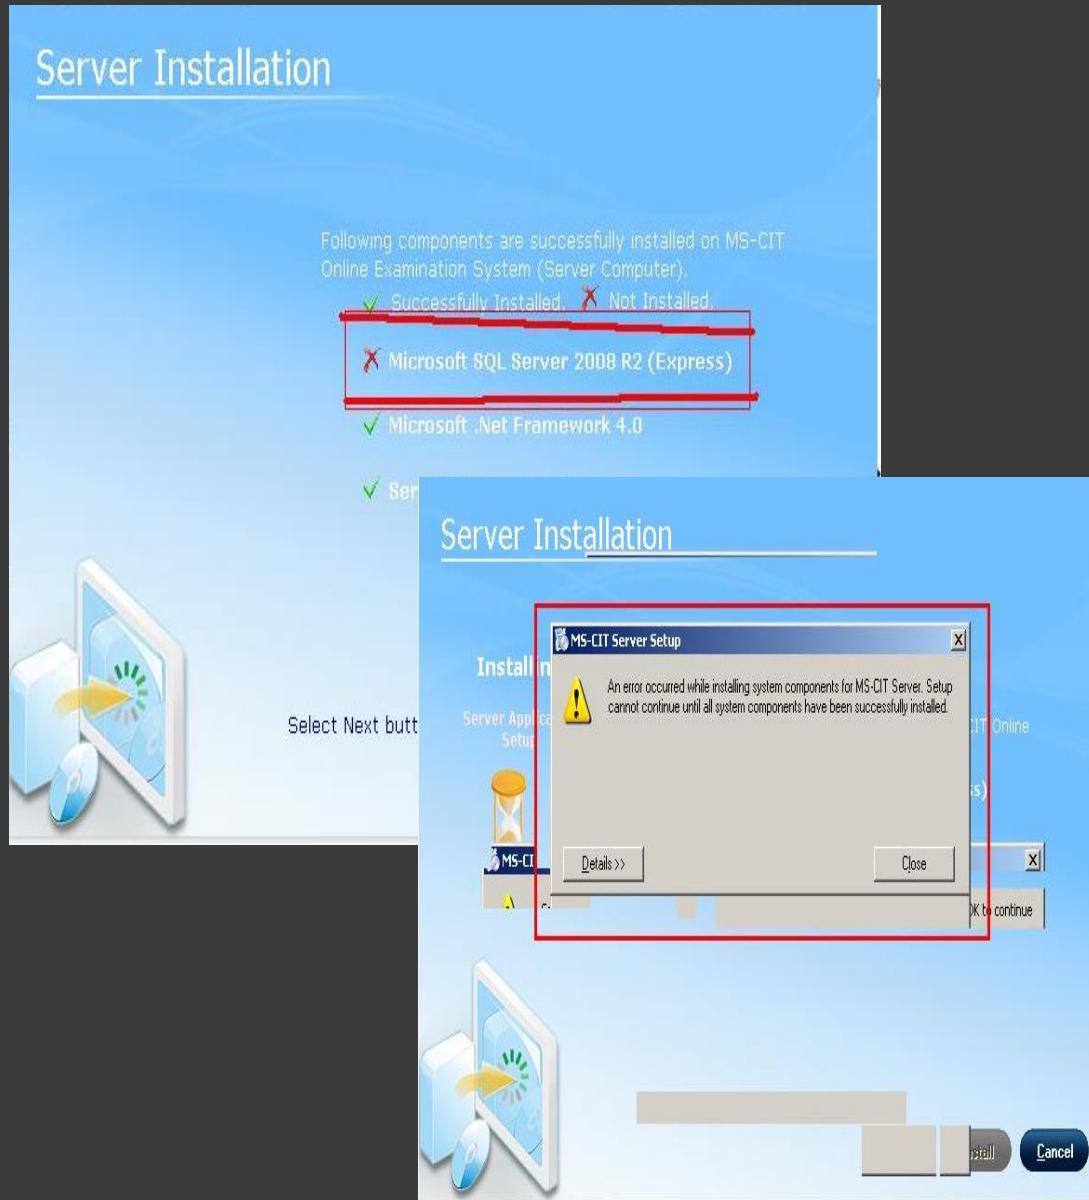

ClientMDB Related Error

Error: Please download valid Client MDB folder in your MS-CIT Client Application.

Solution:

1. MS-CIT Client Update copies Client MDB Folder in the MS-CIT Application Path on Client PC.
2. This error occurs if the Client MDB is not copied to MS-CIT Client Application Path due to insufficient Read/Write rights on that Client PC.
3. Provide the Read/Write rights to the Administrator user and then run the client update again to update the problematic Client PC.

Server Installation Problem

Server Installation Problem

Error: Microsoft SQL Server 2008 R2 (Express) is not installed

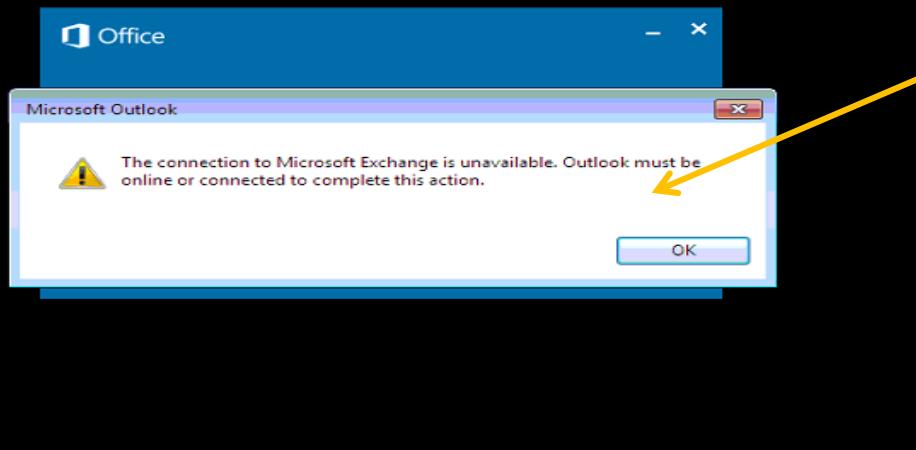

Solution:

1. If SQL server is not getting installed, install "Windows Imaging Component" is provided in the MSCIT DVD.(Path:Other Setup Files\Windows Imaging Component\wic_x86_enu.exe).
2. Do server installation again once you install Imaging Component.
